

Linear
COMPOSITES

Applications **Snow and Sand Control**

**PARTICLE CONTROL
CASE STUDIES**

PARAFENCE™ for
Engineering Applications
PARAFENCE™ for
Sand Dune Stabilisation

Suitable products

PARAFENCE™ in Snow and Sand Control

PARAFENCE™ effectively destroys or reduces wind velocities, it can also be used to control the drifting of snow, sand and particulates.

Its light weight, ease of installation, durability, resistance to corrosion (root proof) and resistance to hydrolysis attack – by rain and sea water – makes it the ideal choice for this type of application.
